

Biomechanical Package

Modern lifestyles exert a huge amount of repeated stress on our neuro-musculoskeletal system. This has dramatic effects in how we feel and how our body functions, with postural adaptations and dysfunctional compensatory patterns developing and resulting in pain. Why not take advantage of the multi-disciplined approach at Bodyworks and provide your body with the optimal care it needs, and get all this cheaper than receiving the same care individually at different clinics.

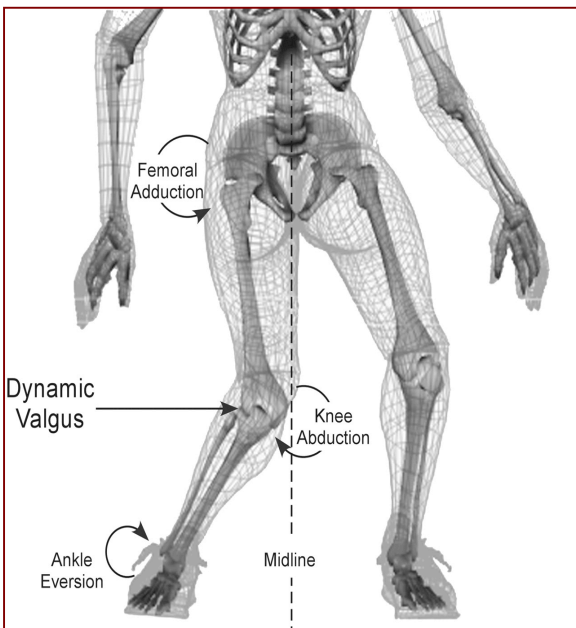

Initial **£115** (saving £15)

1 x Osteopathic consultation and treatment **£40**
